Department requisitioner

Standard Shapes

Start and End of the process flow

High-Level description of Process or Action taken by a person/role

Output of an action that results in a document that can be read by people, such as printed output

Question between process steps; Must have a corresponding yes and no action step

An action a person takes that is manual (i.e. paper)

Input/Output to another set of steps defined within another process flow. Name the corresponding process flow.

Information coming to/from an action step. Input/Output

Indicates the next step is someplace else on the page. Use to avoid crossing multiple lines in a complex process.
